### **The Historical Society of Ogden Dunes - The Briggs Project**

The Historical Society of Ogden Dunes announces a very special presentation regarding remnants of an old shipwreck discovered in Lake Michigan on the Ogden Dunes beach. The lecture will be given by members of the Briggs Project team.

The March 25th presentation will center on the team's theory of how and why the shipwreck came to be at Ogden Dunes and its connection to one of the most important and turbulent times in recent American history—the Civil War.

Due to anticipated higher-than-average attendance this presentation will be held on Sunday, March 25th starting at 5 p.m. at the Ogden Dunes Community Church located on Hillcrest Road adjacent to the entrance of the town. Parking is available in front of the church environs.

Entry is free. Donations encouraged. Light refreshments will be served.
